Tutorial
Deco wreath

Enhance your Christmas decorations with the decorative wreath from GLOREX

- Soft macramé yarn, pleasant to work with
- Fashionable colours in top quality
- Smooth and easy to work with modelling clay

Material:

6 3803 534 Polystyrene half-ring
6 3803 610 Iceland moss natural
6 2220 180 U pins
6 2222 006 Alu wire, 1mm, silver
5 1007 04   Makramee Rope, 3 mm, anthracite
6 8020 009 Fimo Soft black
6 8020 000 Fimo Soft white
6 8020 080 Fimo Soft grey
6 8700 050 Acrylic roller
6 3802 842 Round plier
6 3802 841 Cutting plier
6 1860 226 Jute cord

You will also need a sheet of foil as a base, baking paper, scalpel, modelling spatula, scissors and jewellery glue, star and Christmas tree template.
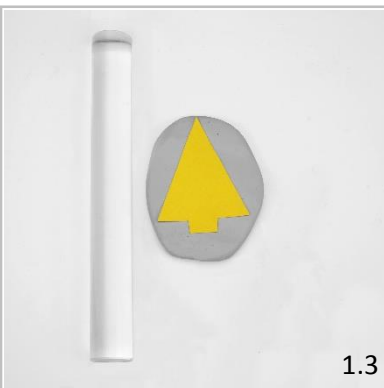

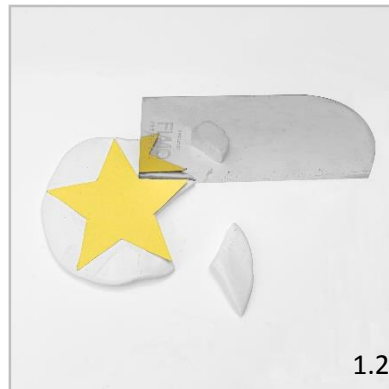

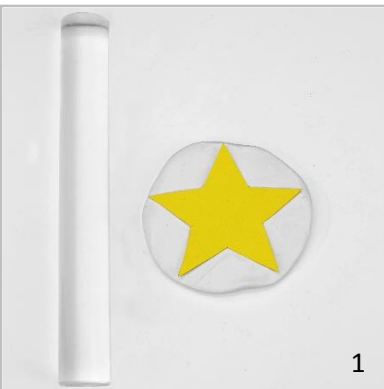

Instructions:

1   Start with white Fimo.
Roll the modelling clay into a ball, place it on the foil base and roll out a circle with the polymer clay roller until your star fits on it.

Use the cutting tool to cut past the template from top to bottom and remove the remaining pieces.

Then knead the grey Fimo clay and roll it out to fit the Christmas tree. Place the Christmas tree template on top and cut out. Then do the same with the black Fimo clay.
The black Fimo clay stains strongly. Therefore, make sure that you work with it at the end.

Caution: Wipe off the tools every time you change colour!

2   Bend small eyelets from the 1 mm aluminium wire and insert them into the polymer clay pendants. Place the pendants on baking paper and bake them in the oven at 110° C for 30 minutes. Leave to cool.

Test the pendants. If a wire eyelet comes loose, apply some jewellery glue to the tip of the eyelet and insert it again.

3   Wrap 6 meters of macramé cord tightly around the polystyrene wreath and pin it to the back with the clasps.

4   Cover the rest of the polystyrene half ring with Iceland moss. Pin the moss in place with the pins. Finally, tie 3 macramé cords around the wreath and attach the Fimo pendants to them.

Have fun & good success
